

## **CELL PHONES, PRINTER CARTRIDGES & BATTERIES**

Your requests to recycle these items have been heard and can now be recycled. In association with our Parks & Recreation Department, arrangements have been made to collect and recycle all used cell phones, all ink-jet and laser printer cartridges (NO TONER CARTRIDGES) and all types of dry-cell batteries, including AAS, AAA, C, D, 9-volt, power tool, laptop, cell phone and camera. ALL BATTERIES MUST HAVE TAPE ON BOTH ENDS OF THE BATTERY (hold the battery in the middle and run a length of tape over both ends).

All of these items will be collected year-round at the Fairview Township Municipal Building, 7471 McCray Road. Cell phones and printer cartridges donated for recycling will earn money for our Parks and Recreation Department.
